Introduction

Welcome to what I hope will be an informative, enriching and exciting educational experience for each of you. As we discuss, explore and analyze current theories, initiatives and practices in two major areas of our profession which are inextricably intertwined, Curriculum and Instruction, a historical-philosophical perspective will be integrated into our journey for the purpose of providing insight into the origins of some current educational initiatives. To this end, I will be providing several original reports for you to read. The textbook I have selected for this course will serve as a resource for you to gather additional information and opinions, and to formulate a broader understanding on the intent and success of the initiatives promulgated in these documents. It will also assist you to articulate your thoughts when you make your posts in our threaded discussions and express your perspectives when you complete the assigned written reports. Of course, the internet is also a viable resource for you to utilize. It is hoped that your reflection on the readings and the discussions that you will be undertaking and participating in during this course will provide you with insight into the beginnings and formulation of current theories, initiatives and practices, and, most importantly, will enable you to develop your professional position on current issues in the design of curriculum and the nature of instruction.

Textbook

Although I intend to provide you with several readings/slides/presentations/videos during this course, the Tanner textbook can serve you well as a valuable resource for this course and in the future. So, referencing it as you complete the reports assigned and as you participate in our threaded discussions will be valuable. I highly recommend this textbook to you for your professional library. It can be purchased at the university bookstore. The Rosen book is required reading and will be needed to complete one of the written reports. This book can also be purchased at the university bookstore or possibly found in your local library.

Water Cooler

The “Water Cooler” thread is your place to post and discuss any ideas that are of general interest to the class which are not specifically related to the course threaded discussions or assigned reports. **Also**, the “Water Cooler” thread is a place to post (share) citations, with a brief overview/summary, of related sources – periodical publications, newspaper articles, books, etc. - which would supplement, complement or enrich the readings and/or discussions specifically undertaken during our course. Participation in this thread is optional but highly recommended. Strong consideration will be given to **extra-credit** for **significant** contributions to our "Water Cooler" which supplement, complement or enrich our course readings or discussions.

“Housekeeping” and “Virtual Office Hours”

Besides e-mail, there will be two additional ways to address questions and concerns during this course, i.e., the “Housekeeping” thread provided in the course and “Virtual Office Hours” using the “Live” tab provided in our E-course. The “Housekeeping” option is always available throughout the course. Unless otherwise notified by means of the “**Announcements**” option in our E-course, every Monday during this course, starting with Monday, September 16th, from 7:00 p.m. to 8:00 p.m., “Virtual Office Hours” for the entire class will be scheduled. “Virtual Office Hours” can also be individually arranged upon request.

Course Policies

Please Read Carefully

Questions: If you have general questions regarding the syllabus, similar to those that would be asked at the beginning of a "face to face" class, please post them to the "Housekeeping" thread and I will try to clarify. In fact it is important during this course that you frequently **check** the "Housekeeping" thread to see if a policy question you may have was raised by a classmate and answered in housekeeping.

Since this is an on-line course, your full participation in the course materials in E-course is required. It is important that you log into E-course frequently to read and participate in new discussions.

You are responsible for staying on top of your assignments. Once in a while E-course has a problem moving files around and I may need to contact you by e-mail. So, **it is important that you check your Rutgers e-mail (not your personal e-mail).**

Discussion threads: particular emphasis must be placed on responding **in a timely fashion** to the postings of the members in your group. You are also responsible for the communication in your group's discussion threads. While I am in no way prohibiting discussions of material outside of E-course (in fact I am hoping for it), when I am grading your class participation all I have access to is what is on E-course. Therefore, if you have a good discussion in another format, i.e., text messaging, e-mails, be sure to post your thoughts in E-course.

I have posted a **rubric for grading threaded discussions** under the "Grading Policy" tab of this "Course Home" unit. This rubric describes how I will be grading on-line participation during this course. Even though I will not respond to every posting, I will be reading your responses for quality of thought, quality of expression and I will also be looking at when you respond. Needless to say, it is easier to respond to the topic/issues if you post early, before everyone else "tackled" the topic/issue. So, beware of always being among the last respondents in a discussion. I will be reading all discussions and posting comments where I think necessary. Please keep in mind that I do expect you to respond to my questions and directions in these postings within forty-eight (48) hours.

Written reports: Your postings in threaded discussions are not an issue since I have access to them. Here are some instructions for submitting your written reports. Carefully follow the instructions on the activity. **All written reports are to be completed in Word, saved as Word documents and submitted using the Dropbox tab. Please do not upload your assignments to Doc Sharing. Use the Dropbox tab and choose the appropriate assignment from the drop down menu. All assignments are to be forwarded to me in this manner on or before the due date – no exceptions.**

The course policies and the syllabus are subject to revisions which will be posted in the "Announcements" section of E-course and you are expected to stay on top of changes made. **It is your responsibility to frequently check the postings I make in the "Announcements" section of our E-course.**

Disability Accommodation Policy

The following statement was provided by Rutgers University for inclusion in our course syllabus:

"Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation:

<https://ods.rutgers.edu/students/documentation-guidelines>.

If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at:

<https://ods.rutgers.edu/students/registration-form>."

Therefore, any student who has already received a "Letter of Accommodation" should contact the instructor immediately at defabiis@rci.rutgers.edu to discuss implementation of his/her accommodation(s).

Prior to accessing this online course(s) or course supplement, please be sure that you are registered, have a valid Rutgers NetID (network identifier), Password and Rutgers e-mail account. I will notify you if there is a discrepancy.
