Course Description

The origin of family dates back to prehistoric times and continues to play a major role in the socialization of children, transmission of culture, identification of role (i.e., parent, uncle, aunt, child, grandparent), supporter of economic status, and forum for intimacy. The systemic family therapist considers individual development in the context of larger family systems. From this perspective, movement in one family member will have an impact across the larger family system. To understand and effectively work with families, it is critical that the family counselor grasp a sense of the larger historical, cultural, relational, economic, and political realities that influence family development, coping, and distress (Gladding, 2007).

The course is experiential and didactic with lecture and skill-building activities offered throughout. The lecture component consists of didactic information related to assigned readings and selected topics in family counseling. Skill-building involves role-plays, mock family interviews, personal reflection activities, case discussions, and application of theory through in-class exercises.

Course Objectives

1. To increase your personal self-awareness about your own family and what it means to work systemically (CACREP II.K.1.a; CACREP II.K.1.b; II.K.5.d; II.K.6.a; II.K.6.b; II.K.6.f. standards).
2. To increase your understanding of systemic theoretical orientations to family work and the role of the family therapist (CACREP II.K.5.a; II.K.5.b; II.K.5.c; II.K.5.d; II.K.6.a; II.K.6.c; II.k.6.d. standards).
3. To increase your repertoire of counseling skills in work with families from diverse backgrounds who present a range of issues (CACREP II.K.2.a.; II.K.2.b; II.K.2.c.; II.K.2.d; II.K.2.e.; II.K.2.f. standards).
4. To understand ethical considerations specific to working with families (CACREP II.K.1.h; II.K.3.e; II.K.5.g; II.K.6.g; II.K.8.f. standards).

5. To understand the research literature associated with different family theories and what empirical studies suggest about the effectiveness of family counseling (CACREP II.K.1.c; II.K.8.c.; II.K.8.e. standards).
6. To understand current public policy as it affects families as well as the role of advocacy (CACREP II.K.1.f; II.K.1.g; II.K.2.a; II.K.2.c. standards).
7. To understand family development and transitions through the life cycle (CACREP II.K.3.a; II.K.3.c; II.K.3.d. standards).
8. To assess family functioning from a systemic, multicultural perspective (CACREP II.K.7.f; II.K.7.h. standards).

Class Format

The class format is divided into two parts: lecture/discussion and role-play skill-building activities. Each class will incorporate both of these activities. All classes will involve active participation from students.

Course Requirements/Evaluation

Attendance to all classes is mandatory. Any absences must be approved by the instructor in advance, failure to do so will result in a 3 point decrease in the student's grade. No late assignments will be accepted.

1.Family observation paper. You are to write a 3-page paper that describes a family you casually observe as they interact in natural surroundings (e.g., restaurant, grocery store). Your paper should detail the things you notice about who is in the family, what type of family this might be (e.g., nuclear, extended family), how family members appear to relate to one another, and qualities of health or "unhealth" in the family you observe. *The assignment is worth 20 points.*

2. Mock Family Genogram paper. With your team, you are to write a paper that describes your mock family's history incorporating theories and concepts discussed in class and the readings. Your paper is to include a family genogram that charts your mock family's experiences. The paper is to incorporate cultural aspects of your mock family and the McGoldrick reading that reflects your mock family's cultural background(s). Be sure to discuss pertinent patterns and trends identified across generations. A description of the paper will be handed out in class. *The assignment is worth 20 points.*

3. Understanding substance abuse and recovery paper. You are to attend an Alcoholics Anonymous (AA) meeting to learn about addiction and its impact on family systems. After you attend the meeting, write a 4-page paper that provides a reflection of what you learned about substance abuse, its impact on families, the recovery process, and your own reaction to the meeting. *The assignment is worth 20 points.*

4. Mock family counseling case presentation. You will have the opportunity to present with your team on the family you "counseled" during the course of the semester. This presentation will include a review of the treatment plan you cultivated with your group as well as a discussion about themes relevant to the family, critical issues, and recommendations for future interventions. *The presentation is worth 20 points.*

5. Treatment plan. You will design a treatment plan with your team that is based on your mock clinical interviews. Discussion about treatment plan development will be reviewed in class. *The treatment plan is worth 15 points.*

6. Class participation/Skill building. This requirement is based on: 1) your willingness to complete homework assignments; 2) demonstration of readings in class; and 3) ability to demonstrate significant skill as a family counselor through skill-building activities. *Skill building is worth 5 points.*
