Learning Goals:

The following goals correspond to the New Jersey Teaching Standards as delineated. Upon completion of this course, students can expect:

- To be familiar with the basic components of major historical models of school discipline (*Content: Standard #4, Content Knowledge; Instructional Practice: Standard #7, Planning for Instruction*)
- To understand and be able to apply basic principles of classroom organization and management to working with students with special needs (*Content: Standard #4, Content Knowledge; Instructional Practice: Standard #8, Instructional Strategies*)
- To understand and be able to apply basic principles of instructional organization to daily academic lessons to facilitate student progress and proactively minimize behavioral problems (*The Learner and Learning: Standard #1, Learner Development; Content: Standard #4, Content Knowledge*)
- To understand & be able to use appropriate data recording approaches & graphically represent & interpret behavioral data (*Instructional Practice: Standard #6, Assessment*)
- To be able to use multiple data sources to craft responsive approaches to help students succeed (*Instructional Practice: Standard #6, Assessment; Instructional Practice: Standard #7, Planning for Instruction*)
- To understand the basics of functional behavioral assessment and behavioral intervention planning (*Instructional Practice: Standard #6, Assessment*)
- To understand models of the student acting-out behavioral cycle, cues at each level, and supportive efforts the teacher can provide to keep the class safe and minimize harmful behavior (*The Learner and Learning: Standard #3, Learning Environments; Instructional Practice: Standard #8, Instructional Strategies*)
- To understand basic issues, challenges, and interventions associated with harassment, intimidation, and bullying (HIB), disruptive behaviors, and violence in schools (*The Learner and Learning: Standard #1, Learner Development; The Learner and Learning: Standard #3, Learning Environments; Content: Standard #4, Content*)

Knowledge)

- To understand and be able to apply surface management techniques in response to classroom behaviors of concern (*Instructional Practice: Standard #8, Instructional Strategies*)
- To understand and be able to appropriately apply basics approaches such as time-out, token economies, and behavioral contracting (*Content: Standard #4, Content Knowledge; Instructional Practice: Standard #8, Instructional Strategies*)
- To understand the basic underpinnings and components of the Positive Behavioral Supports and Social Emotional Learning models (*The Learner and Learning: Standard #1, Learner Development; The Learner and Learning: Standard #3, Learning Environments; Content: Standard #4, Content Knowledge*)
- To understand needs and challenges associated with collaborating with families, & school and allied agency colleagues (*Professional Responsibility: Standard #10, Collaboration*)
- To understand that students' behavioral difficulties can reflect influences in multiple domains, far beyond a within-the-individual, deficits-based model (*The Learner and Learning: Standard #2, Learning Differences*)

Course Catalog Description:

15:293:534 Classroom Organization for Special Education (3): Focuses on special education classroom and behavior management. This course is based on the premise that an effectively run classroom supports student engagement in learning; creates a caring, respectful environment; and facilitates self-discipline, independence, personal responsibility, and prosocial behavior. Course content moves along a continuum from functional assessment of behavioral difficulties to prevention of problem behavior through effective management and instruction to utilization of less intrusive strategies to the use of more intensive strategies, crisis deescalation, and intervention.

Course Description

The focus of this course is on special education classroom and behavior management, primarily from an ecological systems perspective. Course content covers a continuum, including:

- Establishing a positive and productive learning environment
- Building and facilitating positive relationships
- Systematic organization and management of the classroom
- Proactive data-based assessment and management of behavioral issues
- Use of least intrusive strategies
- Use of more intensive strategies, crisis de-escalation and intervention

This course examines multiple approaches to classroom organization and behavior management in special education designed to assist K-12 students with special needs finding success in academic and social-emotional domains. The course provides participants with a research-based understanding of theory and practice in providing appropriate educational services and supports to students. The course stresses multiple perspective-taking, tapping into literatures from several fields, addressing the complex and dynamic nature of interactions that can occur across multiple ecological levels and in varied systems and contexts. The overarching goal of the course is to prepare course participants to be well-educated, thoughtful, and highly skilled practitioners who can offer the most vibrant, positive, and appropriate classroom instruction and management support to meet the needs of their students. The course uses a multiple strand approach,

addressing various dimensions and levels of classroom organization and behavior management while also following a section-by-section progression throughout the course.

The course contains the following strands that run fairly continuously throughout the course:

- Reviewing research with linkages to best-practices programming
- Developing an ability to embrace multiple perspective-taking, learning from multiple literatures, and cultivating a flexible and complex approach to thinking about the needs of students
- Thinking across the ecology of the student, taking a complex approach to analysis and intervention that may incorporate systemic and transactional issues at the peer, family, school, and neighborhood levels.
- Addressing the importance of collaborative working relationships and team-building with all stakeholders
- Thinking in terms of team-based review and analysis of student needs and collaborative intervention planning.
- Cultivating a posture of proactive thinking, ongoing self-evaluation, and positive approaches to working with students with E/BD
- Discussing appropriate professional behaviors, a professional code of ethics, the challenges of “slippery slopes,” and maintaining an ethical compass in trying times

Class Materials/Textbooks:

▪ **BOOK #1:**

Managing Classroom Behaviors: A Reflective Case-Based Approach (5th Edition) [Paperback]
(2011) Kauffman, Pullen, Mostert, & Trent ISBN-13: 978-0137056798

▪ **BOOK #2:**

Elementary Classroom Management: Lessons from Research and Practice (6th Edition) [Paperback] (2015)
Weinstein & Romano ISBN: 978-0-07-802454-2

▪ **BOOK #3:**

Bullying Prevention and Intervention: Realistic Strategies for Schools. [Paperback]
(2009) Swearer, Espelage, & Napolitano ISBN-13: 978-1606230213

- Additional required readings available online within our eCollege course site (in “Doc Sharing” under the “Assigned Readings” tab).

Grading Policy:

1. Class discussion participation (@ 6 points per session x 12 sessions = 72 points).
2. Quizzes (8 quizzes at 15 points each = 120 points)
3. Student-Produced Study Guide (20 points)
4. Website Review Sheets (24 points)
5. Trimester Review Assignments (3 @ 15 points each = 45 points)

6. Classroom Management Plan Project (50 points)
7. Completion of HIB online quiz (GSE requirement)

Course Grades (out of 331 possible points):

GRADE	PERCENT	POINTS
A	93.00 – 100.0 %	<p>Point totals will be converted to percentages.</p> <p>N.B. A grade of 86.99 earns a B, not a B+</p> <p>Any mid-course modification of course assignments that result in changes to possible point totals will be reflected accurately as percentage of total possible points earned.</p>
B+	87.00 – 92.99 %	
B	80.00 – 86.99 %	
C+	76.00 – 79.99 %	
C	70.00 – 75.99 %	
F	Under 70 %	

Assignments:

The course includes substantial weekly readings, structured review of readings and additional content, case analysis activities, online discussions, skill-building activities, quizzes on the assigned readings every session (except session #1), website review project, and school discipline manual/classroom management plan project.

1. **Participation:** Students are required to participate in online class discussions for every session. There are also several required activities with products to submit (skill-building graphing, behavioral recording, and related activities) that are required in order to earn participation points for particular sessions. The instructor will post **2-3 discussion prompts for each session.** For **each** discussion prompt, each student is required to post an original contribution (about 4-6 sentences), and also at least one reply to another student’s original posting or student’s response to another student’s original posting (also about 4-6 sentences). **Students’ will be graded on the thoughtfulness, originality, and overall quality of their postings/replies to others** (see examples below of high and low quality postings). Students must post all of their comments for each session no later than the evening before the beginning of the next session, as listed in the syllabus reading assignments. Students are required to read all student postings.

EXAMPLE DISCUSSION PROMPT: Discuss what you see as potential promises and pitfalls associated with RTI.

EXAMPLE high-quality posting: I believe that RTI is not a panacea, but rather, an unproven approach to LD identification and prevention of early reading problems that may hold promise. Using early screening and intervention for emerging reading problems, avoiding a “wait-to-fail” approach, RTI can help change the learning trajectory for many early elementary students for the better. But to do this well would require a massive commitment of financial and human resources, professional development, staff buy-in, and administrative leadership in the schools. And the question remains, once a student receives remediation through multiple RTI tiers, and is subsequently referred, evaluated, and classified as having a learning disability, what types and intensities of academic services will they receive, compared to those in the RTI tiers to which they were not fully responsive? We also need to consider the new roles for both general and special education teachers under an RTI approach and the data management systems necessary to help make it all work well.

EXAMPLE low-quality posting: I like what Robert said about RTI and I agree with most of his points. His response was very thoughtful. I mean, you can't expect schools and teachers to solve all of the world's problems—there really are limits. And what about the parents? What are their responsibilities to help kids learn to read early on? Everybody needs to work together under an RTI model to help kids succeed.

2. **Quizzes:** The course includes 8 brief session quizzes based on the assigned readings (**see course schedule for due dates**). Many of the earlier quizzes are designed to help students engage in structured review of critical content from each week's assigned readings. Some later quizzes will involve specific skill building and problem solving activities. Quizzes will be open notes, open book, but students are not allowed to consult with other people regarding the quiz questions unless a specific quiz is listed as eligible for team efforts. Any questions regarding the quizzes must be directed to the course instructor.

Students are strongly encouraged to form study groups and email Dr. Bott about parts of the readings for which they have questions.

3. **Trimester Review Assignments:** Students will have three (3) review assignments (to be completed individually or with a partner), which are meant to help translate research-to-practice (**see course schedule for due dates**). One assignment involves creating a lesson for K-2 students on having classroom rules, teaching them about the need for rules and key rule content (this could be in the form of a song or other creative format). A second assignment involves creating two SEL lesson plans: one that involves creating an activity targeted at K-2 students on best ways to handle social conflict; the second should be geared toward grades 4-6 regarding cyberbullying including the use of technology to demonstrate key ideas. The third assignment involves creating a lesson plan on good student habits, note-taking, and study skills appropriate for either 3rd-5th graders or 6th-8th graders (your choice). Students will be provided with a detailed review assignment information sheet when each activity is assigned.
4. **Student-produced Study Guide:** Beginning at session #2, 1-2 students per session will each post a 5-6 page, single spaced, outline form, bulleted study guide for a particular reading from that week. Each student will be assigned a different reading. The student-produced study guide will be posted on the class eCollege site, available to all students enrolled in the course. An exemplar completed study guide assignment will be posted on the site.
5. **Website Review Sheets:** Students will review eight (8) selected special education, classroom organization, and behavior management resource Websites, filling out a review sheet on each Website (review sheets posted on the course eCollege site). Students will complete the review sheets individually and **turn them in at the end of class session #7**.
6. **HIB Online Quiz:** Students are required to take the online Harassment, Intimidation, and Bullying (HIB) assessment near the end of the course. **No course grade will be submitted to the Registrar until a student successfully passes the HIB online test with a grade of 85% or better.** Retakes are allowed with a 1-week waiting period between retakes. Information on accessing online HIB test will be provided to students around the mid-point of the summer course.
7. **Classroom Management Plan Project:** The project involves writing a 9-10 page **Classroom Management Plan** which includes addressing issues of culturally responsive instruction/classroom management. A general template is provided to students. A detailed project rubric can be found in doc sharing. **Project due at the end of class session #11.**

Late Assignments Policy

All assignments are expected on time. Late assignments will receive a reduced grade, generally, a flat reduction in grade equivalent to 10% of the total possible assignment grade per day late (or part thereof). Students with bona fide emergencies should contact the instructor as soon as possible to discuss special arrangements in order to avoid grade penalties. The instructor will work constructively and collaboratively with students who **communicate early** regarding special problems completing assignments on time, with no grade penalties in special situations where advance communication takes place and the circumstances are deemed reasonable, but **will not be supportive of last minute requests for extensions on assignment due dates.**

All assignments should be typed, double-spaced, and neat. *Edit your work before handing it in*, as attention to grammar, spelling, and organization count. Please use 12-point font in a traditional/professional font (e.g., Times New Roman). All assignments must be completed using APA Format (5th Edition). In particular, references should be noted in the body of your work, as well as on a separate reference page. Better than satisfactory writing skills are expected.

Online Study Groups

Students are encouraged to form online study groups. All students who wish to exchange names and email addresses to help find study group partners should email the instructor who will post the list of names and email addresses on the class eCollege site, available to all enrolled students. After that, students can contact one another about forming study groups.

Q & A Forum

Students are encouraged to post questions they have about the more challenging parts of the assigned readings, as well as related topics the class covers, in the online **QUESTION and ANSWER Forum**. It is always a good idea to first try to answer your own questions by rereading content and conferring with fellow students—hopefully, you are part of a study group. But if you can't resolve the issue, post the question and the instructor will usually post an answer that day (or sometimes the next day, depending on when the question was posted). Chances are that if you are confused about part of the readings, some fellow students are also confused, so everyone can benefit from this feature of the course.

Professional Discourse

As current and future teaching and allied field professionals, students are expected to present themselves and act in the online class discussions as they would in a professional meeting in the school district where they work. This applies to several dimensions of professional conduct:

- Students are expected to be respectful of divergent beliefs and opinions that may be voiced in online class discussions, offering constructive questioning and feedback as appropriate.
- Except where otherwise customary (e.g., deaf community terminology), students are expected to use *person-first* language when speaking of students with disabilities (e.g., *student with a learning disability*, **NOT, LD student**), and never use demeaning terms such as *retard*. Students should avoid language that objectifies human beings as “things” of pity, such as, *wheelchair-bound*, *confined to a wheelchair*, or *suffers a disability*.

Academic Integrity Policy:

- The Office of Student Conduct supervises issues related to violations of academic integrity (see <http://academicintegrity.rutgers.edu>). Please familiarize yourself with the university policy on academic integrity at: http://academicintegrity.rutgers.edu/files/documents/AI_Policy_2013.pdf
- Students should review and be familiar with the Policy on Academic Integrity. Violations of academic integrity will be handled according to the procedures and guidelines outlined in the catalog and could result in course failure and/or expulsion. For any and all assignments and class activities, **no copying of any kind is allowed**, unless copied text is placed within quotations and author/source is appropriately cited. Excessive use of quoted material in papers, essays, and tests is strongly discouraged and this will tend to result in lower grades (students need to express themselves using their own language). Plagiarism, handing in someone else's work, work obtained on the internet without documenting the source, or work written for another professor's course are all reasons for failure of this course and dismissal from this university.

Clear evidence of extensive plagiarism will likely result in a grade of F for the assignment AND course.

Office of Disability Services:

Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: <https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at: <https://ods.rutgers.edu/students/registration-form>.

Course Schedule:

(Note: Assigned readings to be completed BEFORE the session.)

SESSION	CONTENT COVERAGE	READINGS (by shortened name)
1 6/22-6/24 (61pp.)	<ul style="list-style-type: none">• Foundations of Classroom Organization and Behavior Management	<ul style="list-style-type: none">• Weinstein, Chapters 1 & 2• Kauffman, Chapters 1 & 2• Kauffman Case: <i>Avoiding the Issue</i>
