**HOW TO SUCCEED IN THIS ONLINE COURSE:**

Students report that in an online course they have to be able to interact with others in multiple ways and this requires more time, dedication, and time-management than does a traditional face-to-face class.

- In an online course, reading and writing are more important than in a traditional class. You have to be able to read and understand the writing of others—your instructor and your fellow learners. You must be able to comprehend written directions so that you can complete assignments. You need to be able to compose clear questions to your instructor when you are confused or need clarification. As for your own writing, you need to answer questions completely and concisely with attention paid to spelling and grammar.

- You need to be comfortable working with a computer and using the Internet. You need to know how to log into the course, send responses to your professor, work in online groups, and respond in the discussion forum format.

- You need to be able to manage your time well so that assignments are submitted on time. You should expect to login to the course at least three times a week and spend at least two to three hours doing your online lessons.

- An online course requires you to be a more critical and creative thinker who can make personal “sense” of what you are to do to succeed in this course.

**ETHICS FOR AN ONLINE COURSE**

The same standards of conduct and courtesy apply online as in a regular classroom. However, it is important to remember that you must pay even more attention to these standards when you study and learn online. Here are some suggestions:

- Participate and share. Think **before** you hit “send.” How will the person reading this message interpret it? No one can see your smile if you are being sarcastic! No one can read what you don’t write. So be sure to explain fully what you mean.
• Please remember to be kind and polite to all those with whom you communicate online. Derogatory or inappropriate comments are unacceptable and subject to the same disciplinary action as they would have if they occurred in a traditional classroom.
• Ask questions and respond to others so that we can help each other learn and grow as teachers, administrators, and people.

DISABILITY ACCOMMODATIONS STATEMENT

In order to ensure full class participation and to meet individual learning needs, any student with a disabling condition requiring special accommodations (e.g., tape recorders, special adaptive equipment, special note taking or test taking procedures) is encouraged to contact the professor at the beginning of the course. Additional assistance is available at https://ods.rutgers.edu/
